

# LANDRY CANCER BIOLOGY CONSORTIUM

---

## Landry Cancer Biology Consortium Fall Symposium

**November 15, 2016**

**1:00 pm, Harvard Faculty Club**

**Program:**

- 1:00pm - Welcome, Karen Cichowski, PhD; Brigham and Women's Hospital**
- 1:10pm - David Liu, PhD; Harvard University - "A new approach to genome editing"**
- 1:55pm - Carla Kim, PhD; Boston Children's Hospital - "Tumor-propagating cells in non-small cell lung cancer"**
- 2:50pm - Philippe Cluzel, PhD; Harvard University - "Dissecting cellular heterogeneity with scaling laws in tumors"**
- 3:35pm - Andi McClatchey, PhD; Massachusetts General Hospital - "Regulation of growth factor receptors by the cell cortex"**
- 4:30pm - Kevin Egan, PhD; Harvard University - "Selective pressures in human pluripotent stem cell culture favor the accumulation of known cancer causing genetic variants"**
- 5:15pm - Steve Elledge, PhD; Harvard Medical School - "How aneuploidy drives cancer"**
- 6:00pm – Reception**
